DURATION® DESIGNER COLOURS COLLECTION

Shingles with SureNail® Technology

Black Sable†

PROVEN PERFORMANCE EYE-CATCHING COLOUR

Bright. Bold. Brilliant. The world around us is full of colour. From the cars we drive to the appliances we buy, we choose the colours that reflect our personal style. Don't overlook the power of using colour on your roof to help coordinate exterior accents like paint, trim and even landscaping. If you're looking to add more drama to your home or give it a knockout new look, you'll be amazed at the difference that TruDefinition® Duration® Designer Colours Collection Shingles can make – they offer brilliant impact and curb appeal like you've never imagined.

When the deep dependability of your new roof is cloaked in style, the end result will be undeniably spectacular.

Duration® Designer Shingles Offer:

- A Limited Lifetime Warranty*^{+/++} for as long as you own your home
- The protection of a 209 KM/H (130 MPH) wind warranty*
- The advanced performance of SureNail® Technology
- A TruDefinition® Colour Platform
- StreakGuard® Protection with a 25-year Algae Resistance Limited Warranty^{1/§}
- Rated Class 3 for Impact Resistance³ and may qualify for a homeowner insurance discount⁴

Don't let black streaks lower the value or curb appeal of your home.

Owens Corning blends specialized copper-lined granules, developed by 3M, a leading producer of roofing granules, into our colourful shingles. This helps resist blue-green algae growth.¹

COLOUR DISCLAIMER

As colour experts, we know getting the shingle colour right is a big part of any roofing purchase. Due to printing colour variations, in addition to viewing shingle literature, we suggest you request an actual shingle sample to see how it will appear on your home and with your home's exterior elements in various natural lighting conditions. Lastly, we recommend you verify your colour choice by seeing it installed on an actual home; your roofing contractor or supplier can provide a sample and may be able to direct you to a local installation.

THE PROOF IS IN THE PERFORMANCE

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having SureNail® Technology, only from Owens Corning.

Excellent Adhesive Power
Helps keep the shingle layers laminated.

Outstanding Grip
The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®** sealant for exceptional wind resistance of a 209 KM/H (130-MPH) wind warranty.*

Breakthrough Design
SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

“No Guess” Wide Nailing Zone
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see, strong, durable fastener zone.

Double the Common Bond
SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

Triple Layer Protection®+
A unique “triple layer” of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against “nail pull” from the wind.

TOTAL PROTECTION SIMPLIFIED™

It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to perform in three critical areas. The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof.
