

**90%**  
OF U.S. HOMES ARE  
UNDER-INSULATED<sup>1</sup>

## WORRY-FREE COMFORT.

An energy-efficient home is more comfortable, quiet, and energy smart. Yet, research shows approximately 90% of U.S. homes are under-insulated.<sup>1</sup> Making energy improvements to your home can save you money on your bills and provide additional value when the time comes to sell. Some of the more popular insulation upgrades are:

- Adding insulation to your attic to ensure proper R-value
- Better sound control for the laundry room, bedrooms and bathrooms
- Basement box sills (the thinnest area of a home's exterior)
- Garage and/or bonus room insulation for added thermal protection

### Trained. Tested. Trusted.

We are the region's Owens Corning® Certified Energy Expert® professional. As a locally owned insulation contractor, we have been nationally recognized for upholding the highest industry practices. Your insulation installation comes with added peace of mind through a limited lifetime warranty on qualifying products and on the workmanship<sup>2</sup> covering:

- The homeowner of any free-standing residential home or any wood framed multi-family housing structure (5 stories or under) containing Owens Corning® Fiberglas™ insulation installed by a Certified Energy Expert® within the United States.
- The CEE Limited Lifetime Warranty can be transferred from homeowner to homeowner for the life of the home.

### Only the best contractors can offer the best warranty.

Only the best insulation contractors meet the stringent criteria required to be designated an Owens Corning® Certified Energy Expert® professional. Our warranty provides a level of coverage and confidence that no other insulation brand can match.

<sup>1</sup> Estimate developed by the North American Insulation Manufacturers Association based on an analysis of the single-family detached residential building stock by Boston University. Under-insulated here means when compared to the minimum prescriptive wall and ceiling insulation R-values found in the 2012 International Energy Conservation Code. <sup>2</sup> See actual warranty for complete details, limitations and requirements. For the lifetime of the home beginning from date of installation by an Owens Corning® Certified Energy Expert®. <sup>3</sup> Source: Home Innovation Research Labs Builder Panel, April 2019.
